

Grabber SuperDrive N7

Attachments for Auto-Feed Fastening

FEATURES

- Available for DeWalt, Makita, and Milwaukee drivers
- Easily connects with no couplers or conversion required
- Can accommodate various fastener lengths easily with the SureLock fine depth adjustment dial
- Designed for fastener lengths from 3/4 in. to 2 in.
- Rounded nose piece will not damage drywall or surface
- N7 uses a widely accepted tape collation system offering a wider selection of collated fasteners
- Tape collation makes it possible to reach into more spaces than rope or other collation systems
- 50 screws per strip means fewer change outs compared to other collated systems

APPLICATIONS

- ✓ Drywall and Sheathing to Wood or Metal
- ✓ Light or Heavy Gauge Metal
- ✓ Wood to Wood

SDN7D1
