Trim Board Screw

Wood to Wood

		Image: Additional and the second s
Description	Used for attaching wood trim over single- or	double-layer gypsum board.
Specifications	Size Gauge: #7 and #8 Length: 1 5/8 in. to 3 in. Head Type: Trim Recess Type: T15, T20 Star Thread Type: Coarse Finish: GrabberGard [®] , Stainless Steel	Quality Assurance: Grabber [®] fasteners are manufactured in ISO 9001 and ISO 14001 certified and approved factories. LEED Reporting: The post-consumer recycled steel content is 25%.
Applications	 Exterior trim to wood 	 Exterior finish applications
Installation	 Use a standard screw gun with a depth-sensitive nose piece, drill or impact driver. Suggested screw gun specification for optimal performance: sizes #7 and #8, up to 4,000 RPM. 	 The trim head is fully seated when the head is flush with the work surface. The fastener should penetrate the wood at least 5/8 in., in accordance with AWC-NDS for wood construction. Overdriving may result in failure of the fastener.
Features	 Star recess provides consistent, reliable performance in wood-to-wood applications. Trim head design provides better holding power in trim-to-wood applications. 	 Underhead nibs self-countersink as the screw seats. The QuickGrab[™], Type 17 point starts immediately, allowing you to free up your other hand.

Standard Corrosion **Test Results**

Finish	Test	Standard/Protocol	Results	
GrabberGard®	Salt Spray	ASTM B117	1,000 hrs., no red rust	

Note: Salt Spray Testing (SST) results are not intended to predict corrosion in real-world environments. The ASTM B117 standard for SST is recognized industry-wide as an effective tool for comparing different metals and different metal coatings in a tightly controlled, highly corrosive environment for specific periods of time. For more information about corrosion resistance, refer to Grabber's Coatings and Corrosion Resistance Classifications in the Technical Data section of Grabber Fastener Solutions, PG1000. Consult with a corrosion specialist or the architect or engineer of record for detailed guidance or decompendations ensuit for the architect or engineer of record for detailed guidance or decompendations ensuit for the architect or engineer of record for detailed guidance or decompendations ensuit for the architect or engineer of record for detailed guidance or decompendations ensuit for the architect or engineer of record for detailed guidance or decompendations ensuit for the architect or engineer of record for detailed guidance or decompendations ensuit for the architect or engineer of record for detailed guidance or decompendations ensuit for the architect or engineer of record for detailed guidance or decompendations ensuit for the architect or engineer of record for detailed guidance or decompendations ensuit for the architect or engineer of record for detailed guidance or decompendations ensuit for the architect or engineer of record for detailed guidance or decompendations ensuit for the architect or engineer of t and recommendations specific to your project.
